ture new supplies of it, but there is not half employment for what is on hand; toujours perdrix becomes as bors. In the local market there has been only the usual activity; some Mississippi and Tennessee rail road first mortgage bonds have changed hands at 1134;, but no more can be had under 114. Gas stock has ceared to be an object of logisty. "Moneyed meb" do not, as a rule, know much of science; if they did their knowledge on the subject of gas could be turned into dollars. They know science can do much, and they dread it, in their way, as the savage dreads the thunder. If they comprehended its limits they would cease to fear and find a science can do much, and they dread it, in their way, is the savage dreads the thunder. It they comprehended its limits they would cease to fear and find a way to make money. The "practical common sense-people" are the material that furnish the world with some of its richest comedy and its profoundest dupes. The New York Harald reported on Friday: "The following were the rates of exchange on New York on the undermentioned cities to-day: Savannah, selling 5-16, buying, 3-16; Charleston casy-selling, 3-16; buying, 4; New Orleans-commercial, is premium, bank it premium; St. Louis, 50 cents premium, the character of the count buying, and 1-10 premium selling; Boston, 9d to 1s discount." At the close of our last review of the cot-

quotation was 12 7-10c. At the same time sales in most places fell down to insignificant figures; in one daysales in New Orleans were only 750 bales, in Memphis 25, in Galveston 11c. The reason was that factors were firm in their adherence to the point quotations had reached, while buyers, apprehensive of a reaction from the rapid nuward course of prices, abstatued from purchasing until events should give some intimation as to the security or insecurity of present quotations. The attude, therefore, at the conclusion of the week is one of extreme watchfulness. At this point it will not be without interest to revert back to the course of prices since the time of the yellow fever, accordingly we give two quotations for each month—the beginning and the middle—of the prices of middling in New York; November, 9.5-16, 18gc; becomber,

The New Orleans Pierpass, of saturday, expresses the following views respecting he stuation: "Nothing hastranspired to materially affect the general position of the market, or counteries and to United Sares mills, direct for April, amounted to 51,797 bales against 44,923 last rear. The excess of 36,781 bales, lowerer, has been partially offset by a decrease of 20,646 in the receips at the ports. These figures, while they may repress any tendency toward reducing off in port receips, do not warrant any increase in estimates, and Europa has been operating for months past upon the prospect of obtaining 5,100-100 pales from the sou h this season. American pointers from Septemb r 1st to April Softh took 1,191,266 bales, against 1,004,095 for the corresponding period last pear—an increase of 187,071 bales, according to current est mates of consumpton they will returned at all parts, leaving only 300.

At the close of our lest review of the cotton markst for the last official week, New York quoted middling cutton at 12c it advanced during the week to 12 7-16c after having been up to 124c; New Oneans quoted 144c, advanced to 12c; Liverpool quoted 144c, advanced to 12c; Liverpool gooted 045c, advanced to 12c. The rapid upward turn of prices that set in with the monit of April has continued outing another week, but the week ends with a pause, the termination of which is looked forward to with much interest, for the present time presents the appearance of a son of crisis after which the cutton markstwill probably assume an attitude that may characterize it for the remainder of the season. Notice to Delinquents.

THE delinquent list of State, County and Ballroad Taxes, from 1865 to 1875 inclusive, are in my hands for collection. In every case where a writ of possession is authorized, the same will be issued and placed in the hands of the sheriff to be executed. In cases where other steps are authorized, the same will be taken, and levies made in accordance with the following acts of the legislature, to which I respectfully call the attention of all parties interested: ACTS OF 1875, CHAPTER 103, SECTION 6. ACTS OF 1875, CHAPTER 103, SECTION 6.

"That said back tax-collector shall have all the powers to enforce collections of said unpaid taxes that were possessed by the various revenue collectors of the State on the first day of January, 1875, and his right to levy or distrain and sell personal or real property belonging to delinquent tax payers, shall exist so long as such taxes remain unpaid."

In order to avoid annoyance and additional costs, parties should see that there are no delinquent taxes against them or their property, as in many cases I can only give notice to property owners through their tenants.
